ActivConnect G Home Screen Bookmark

Getting Ready

Make sure Google Play Services have been installed and you have logged into the Google Play Store and updated all apps.

Find the Google App in All App (the four square on the bottom left of your home screen)

Open the Google App and click the settings (three dots in the upper right).

Select Accounts & privacy. Make sure "Open web pages in app" is turned on.

Step One

Open the Google App and search for the site you want to bookmark. Click to open the site.
