

Customizing Your Home Screen on ActivConnect G

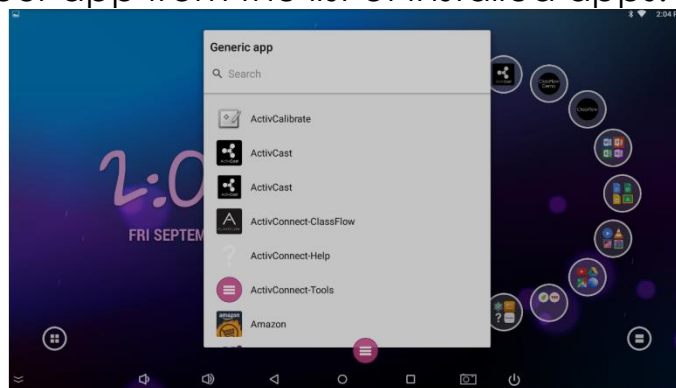

1. After the Google Play Store is installed, you must login to Google Play Store with a Google account. Then you have access to download all of your favorite apps.
2. Adding a bubble to your wheel (after an app is downloaded and installed)
 - a. Press and hold in the middle of the wheel. The white box will appear.
 - b. Select Add Bubble

- c. Select Generic App

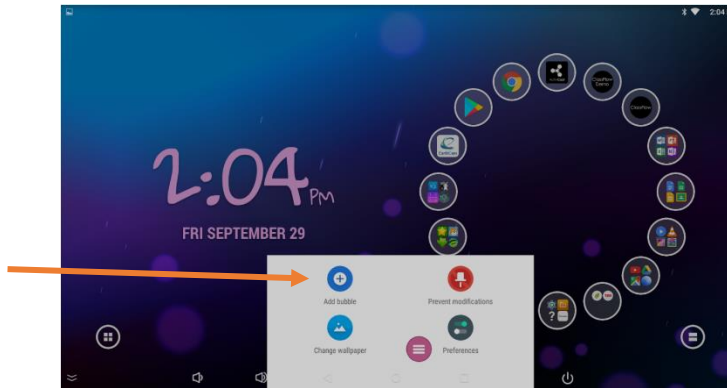

- d. Choose your app from the list of installed apps.

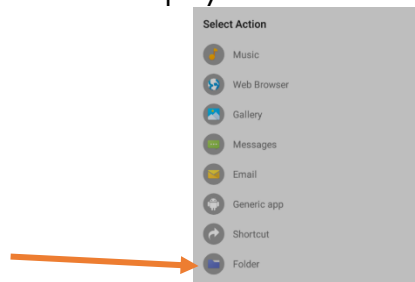

An app bubble/shortcut will be added to your wheel.

3. Adding a folder to your wheel

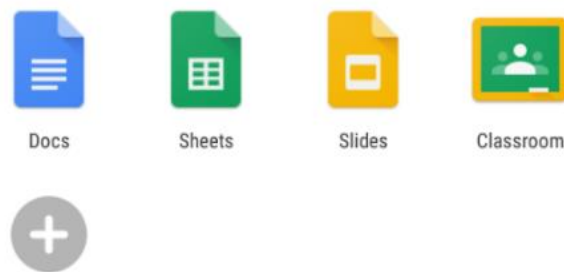

- a. Press and hold in the middle of the wheel.
- b. Select Add Bubble

- c. Select folder – an empty folder will be added to your wheel

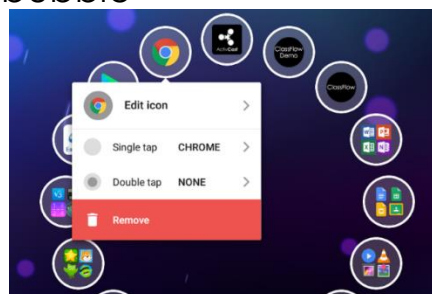

- d. App shortcuts (bubbles) can be held and dragged into a folder
- e. Tap on the folder to see its contents

- f. Tap on the + to add generic apps directly to the folder.

4. Deleting bubbles from your wheel

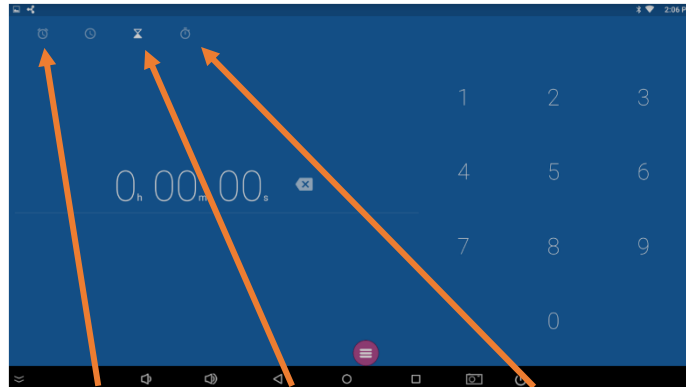

- a. Press and hold on the bubble

- b. Select Remove

- 5. Changing your wallpaper
 - a. Press and hold in the middle of your wheel
 - b. Change wallpaper

- 6. Clock widget
 - a. Tap to utilize clock tools

Alarms Timer Stopwatch

- b. Press and hold on the clock (on homescreen) to remove from home screen or customize style and color.
